Notes to Consolidated Financial Statements

Nine months ended March 31, 2020

1. GENERAL INFORMATION

Société d'Exploration Minière Vior Inc. (the "Corporation") which is governed by the Quebec Business Corporations Act, is in the business of acquiring and exploring mining properties. The address of the Corporation's registered office is 1801, McGill College, suite 950, Montréal, Québec Canada. The Corporation's shares are listed on the TSX Venture Exchange (the "Exchange") under the VIO ticker.

It has not yet determined whether its properties contain ore reserves that are economically recoverable. The recoverability of the amounts shown for mining properties is dependent upon the existence of economically recoverable reserves, the ability of the Corporation to obtain necessary financing to complete the exploration and development of its properties, and upon future profitable production or proceeds from the disposal of properties.

In addition to ongoing working capital requirements, the Corporation must secure sufficient funding to meet its existing commitments for exploration and development programs and general and administration costs.

Management is periodically seeking additional forms of financing through the issuance of new equity instruments, the exercise of warrants, common shares and stock options to continue its operations, and while it has been successful in doing so in the past, there can be no assurance it will be able to do so in the future. Without new funding, the Corporation may be unable to continue its operations, and amounts realized for assets may be less than amounts reflected in these condensed interim consolidated financial statements ("Financial Statements").

The Financial Statements were approved by the Board of Directors on May 21, 2020

2. BASIS OF PREPARATION AND NEW ADOPTED ACCOUNTING STANDARDS

2.1 Basis of preparation

The Financial Statements have been prepared in accordance with the International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements, including International Accounting Standard ("IAS") 34, Interim Financial Reporting. The Financial Statements should be read in conjunction with the annual financial statements for the year ended June 30, 2019, which have been prepared in accordance with IFRS. The accounting policies, methods of computation and presentation applied in these Financial Statements are consistent with those of the previous financial year.

2.2 New adopted accounting standards

Amendments of IFRS 9

In October 2017, the IASB issued narrow-scope amendments to IFRS 9. The amendments clarify the classification of certain prepayable financial assets and the accounting of financial liabilities following modification. The amendments are effective for annual periods beginning on or after January 1, 2019. The Corporation adopted these amendments for the fiscal years on or after July 1, 2019 and it did not have an impact on its Financial Statements.

2. BASIS OF PREPARATION AND NEW ADOPTED ACCOUNTING STANDARDS (CONT'D)

IFRS 16, *Leases* ("IFRS 16")

This new standard issued by the IASB in January 2016, establishes principles for the recognition, measurement and presentation of the leases and the disclosures about them, from the points of view of the lessee and the lessor. For accounting of the lessee, there will be now only one model, which requires the recognition of all assets and liabilities arising from lease contracts. This standard is effective for annual periods beginning on or after January 1, 2019. The Corporation adopted these amendments for the fiscal years on or after July 1, 2019 and it did not have an impact on its Financial Statements.

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of financial statements in conformity with IFRS requires the Corporation to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The Financial Statements include estimates that, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the financial statements, and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods if the revision affects both current and future periods. These judgments, estimates and assumptions are based on historical experience, current and future economic conditions and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

In July 2019, 200,000 shares of Ethos Gold Corp ("Ethos") were issued to the Corporation in July 2019 and valued at \$50,000 (note 5.3).

In December 2019, the Corporation has made an additional investment of \$247,500 in the 1st tranche of Ridgeline Minerals Corporation's ("Ridgeline") (previously Carlin-Type Holdings Ltd.) second round of financing, providing it with a non-diluted equity interest of approximately 9.9% in Ridgeline. The Corporation has also been granted a participation right to maintain its 9.9% equity interest (pro-rata basis) in Ridgeline's 2nd tranche of this second round of private placement equity financing. In February 2020, Vior has made an additional investment of \$167,750 in the 2nd tranche of Ridgeline's second seed round of financing. Vior has invested a total of \$625,850 in Ridgeline for 3,642,500 shares.

7. WARRANTS (CONT'D)

- 1) The 2,750,000 warrants due to expire on December 20, 2019 have been extended for one year such that the new expiry date is December 20, 2020. Total costs of the warrant extension amounts to \$51,861 for an estimated fair value of \$0.019 per warrant, recorded under warrants and the offsetting entry was recorded in the deficit. The fair value of the warrants extension was estimated using the Black-Scholes model calculated for the deference between the extended period and the remaining period when the decision was taken to extend the warrants. The assumptions used were as follow for the two periods respectively: no expected dividend yield, 82.76% and 38.07% expected volatility, 1.70% and 1.66% risk-free interest rate and 1.08 and 0.08 year warrant expected life.

8. STOCK OPTIONS

850,000	0.10	October 30, 2027
3,690,000		

On July 8, 2019, the Corporation granted to an officer 150,000 stock options exercisable at \$0.11 per share, valid for 5 years. Those options were granted at an exercise price equal to the closing market value of the shares the previous day of the grant. The estimated fair value of these stock options is \$12,300 which is \$0.082 per stock option. The fair value of the options granted was estimated using the Black Scholes valuation model with no expected dividend yield, 110.0% expected volatility, 1.58% risk-free interest rate and 5 years options expected life. This expected life was estimated by benchmarking comparable situations for companies that are similar to the Corporation. The expected volatility was determined by calculating the historical volatility of the Corporation's share price back from the date of grant and for a period corresponding to the expected life of the options.
