BELLETERRE GOLD PROJECT

A Potential Major Gold
Discovery in Québec ...

Projects – Overview

Exposure to other major exploration projects in Quebec

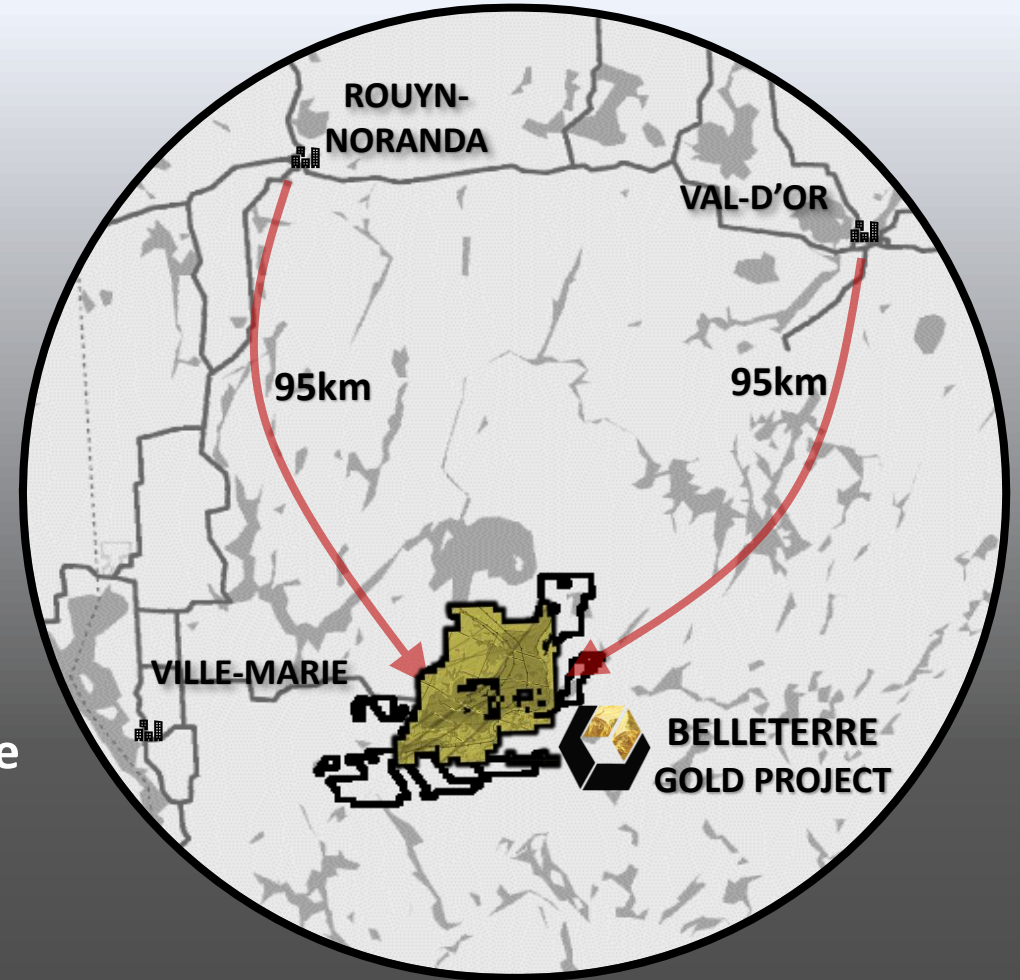

Belleterre Gold Project

Highlights & Opportunity

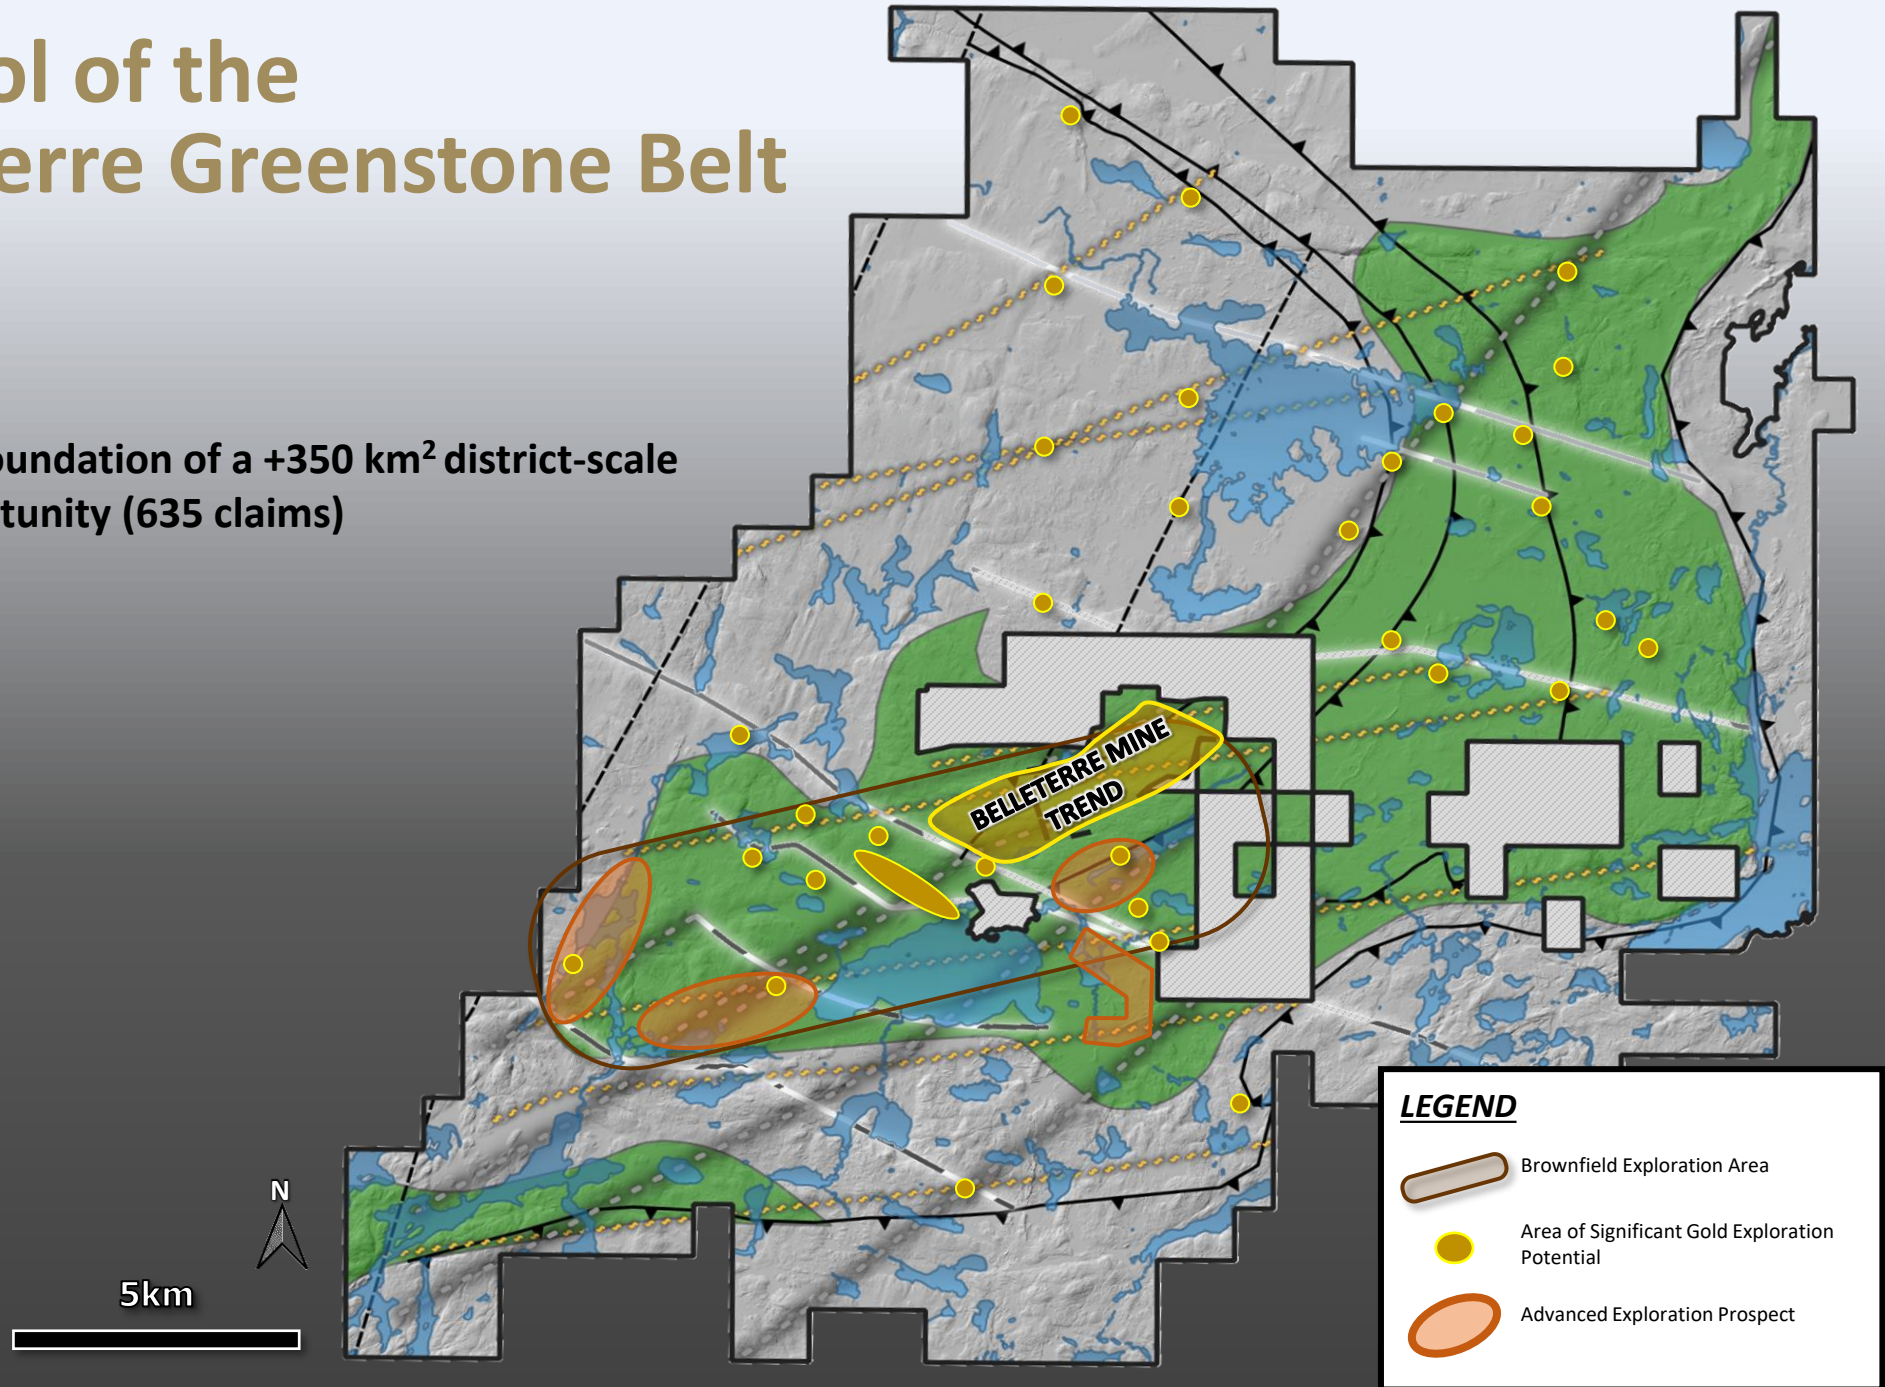

- Past producing high-grade Belleterre gold mine
 - ~800K oz Au @ 10.7 g/t (MERN)
- Excellent location & low-cost exploration
- High-grade gold system untested at depth & along strike
- District scale with multi-deposit potential
- Osisko Mining Inc. strategic support
- Drill-ready with proposed +60,000m drill program

Control of the Belleterre Greenstone Belt

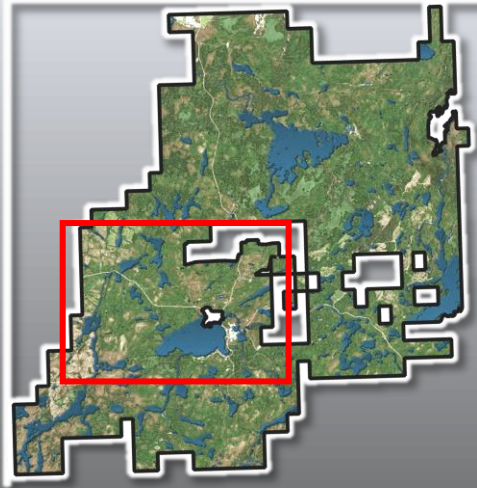

The foundation of a +350 km² district-scale opportunity (635 claims)

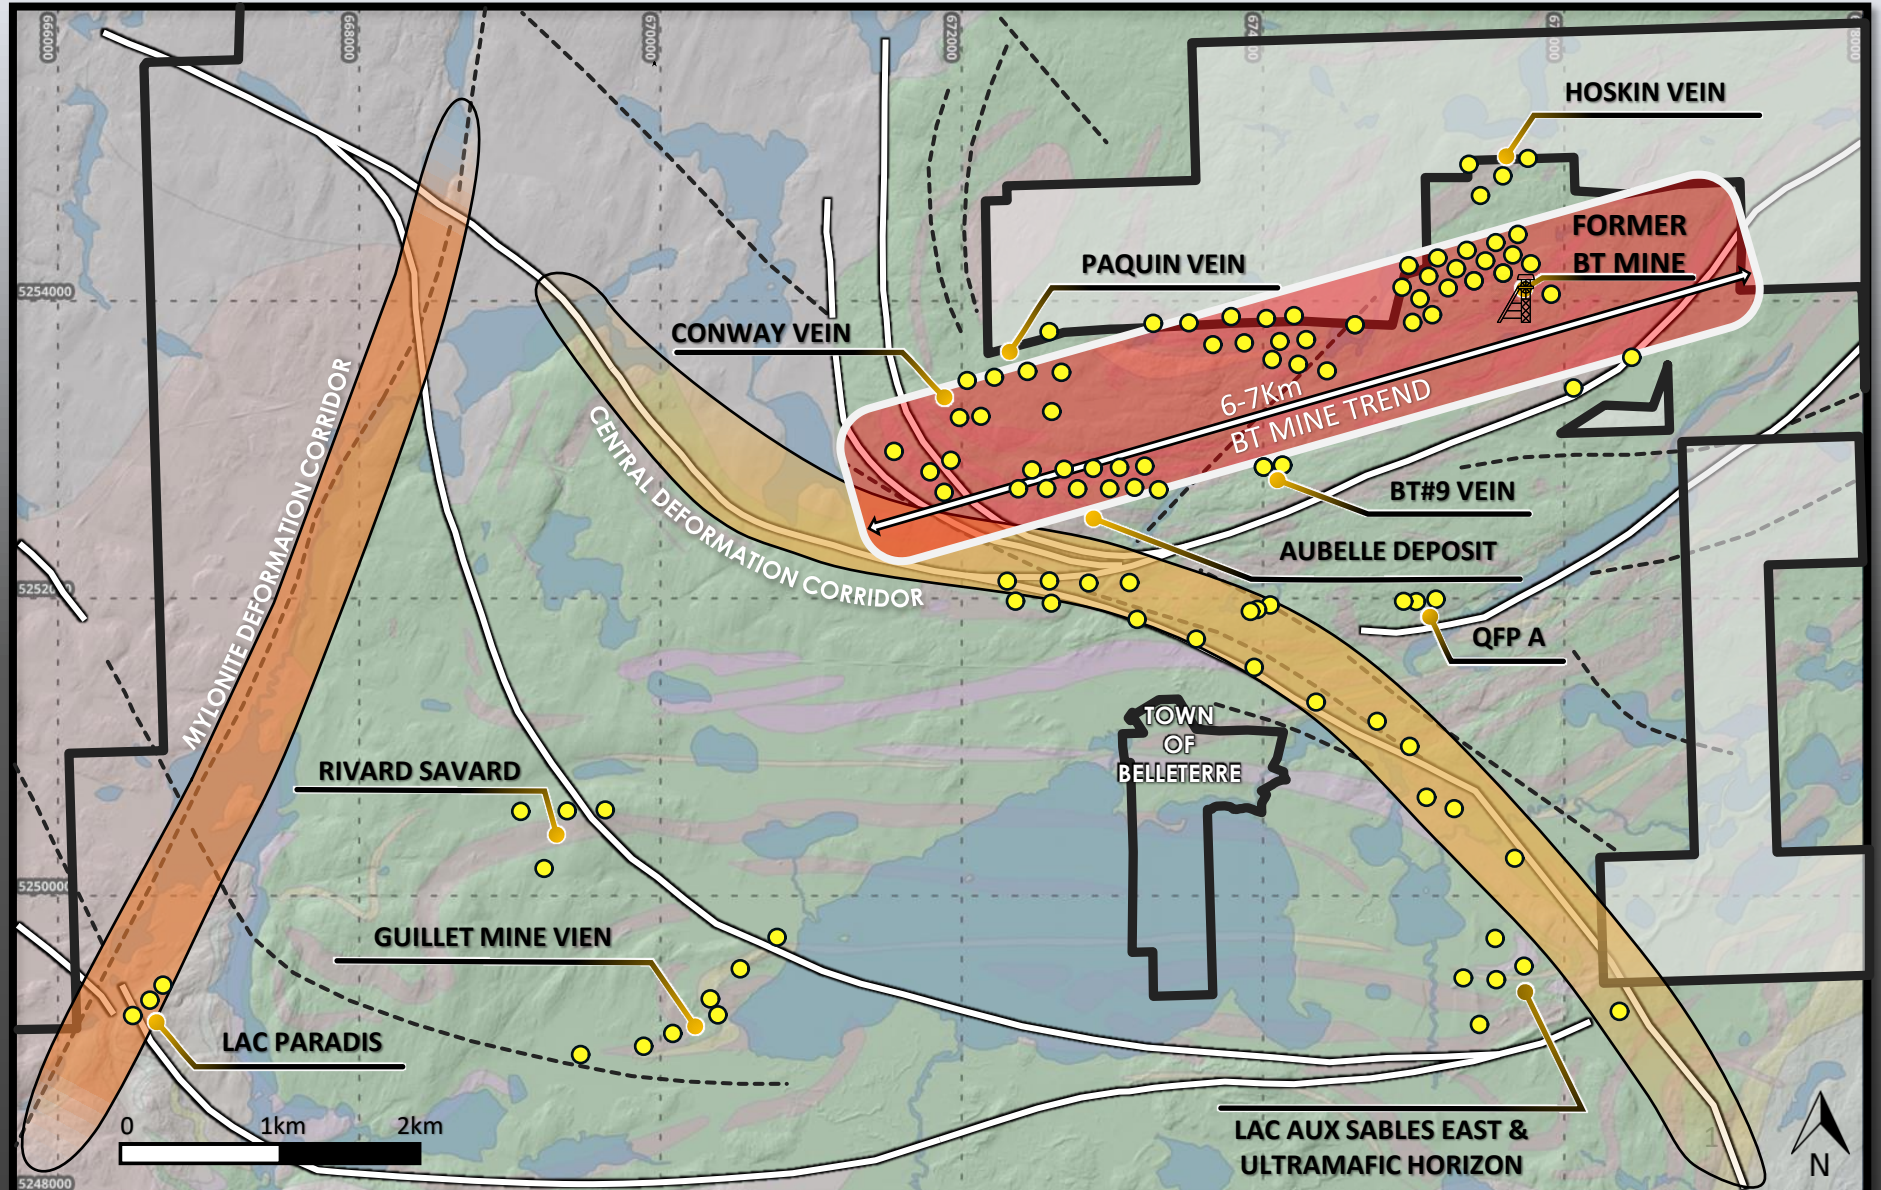

Belleterre Gold Project – Drilling Plan

Belleterre Gold Mine Trend

VIOR Primary DDH Target Locations

BELLETERRE TARGETS

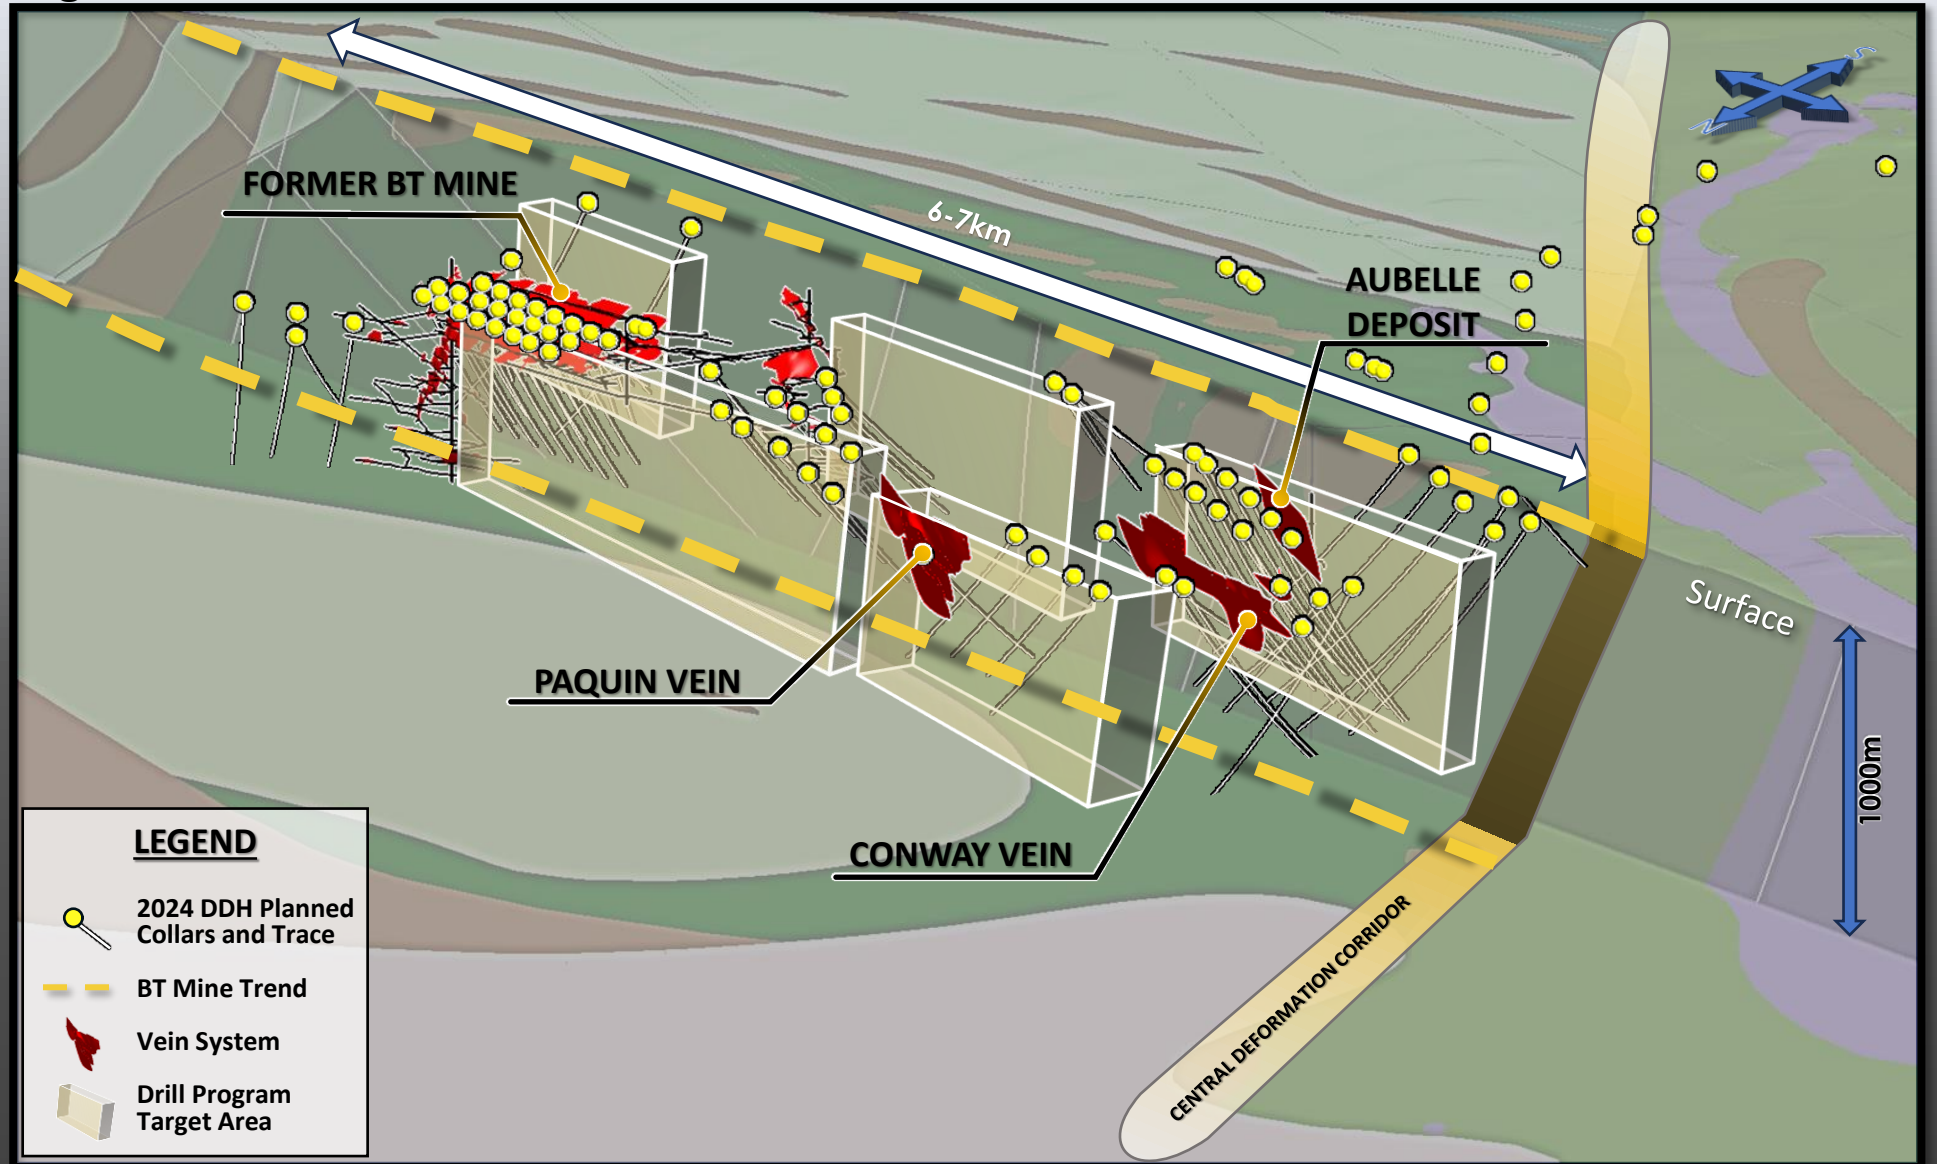

- Test the depth extension and northern stacking of Belleterre mine veins
- Extend multiple east plunging high-grade shoots

AUBELLE TARGETS

- Test depth extension and northern stacking of Aubelle deposit
- Delineate the orientation of high-grade shoots

CONWAY-PAQUIN TARGETS

- Test south-dipping zones between Aubelle and Conway veins.
- Confirm stacking of shear veins between Conway and Paquin and untested regions.
- Verify ductile connecting veins by north-to-south drilling

Beyond The Former Production Area ...

The foundation of a +350 km² district-scale opportunity (621 claims)

The Vior Investment Opportunity

SOLID FOUNDATION

- Strong balance sheet & treasury
- Significant insider share ownership
- Excellent exposure to multiple high-potential mineral projects in Quebec

PROVEN STRATEGY

Significant new discovery Potential

- Belleterre - Gold
- Skyfall - Nickel/Copper/Cobalt/Gold
- Foothills - Titanium/Phosphate

Osisko Mining Inc.- Strategic Support

- **BELLETERRE GOLD** - Rapidly Advancing a Potential High-Grade Discovery
 - *Gold targets finalized for +60,000m drill program*
 - *Permitting process underway with the Ministry*
 - *Excellent relations with local communities and First Nations*
- **Skyfall Nickel** – *Advancing district-scale Ni/Cu/Co/Au potential funded \$2.5M Option with SOQUEM*
- **Foothills** – *District-scale Titanium and Phosphate potential with 16.5 km+ of proven mineralized horizons*
 - *Spring 2024 field validation program, metallurgy testing and drill targeting*
- **Portfolio of other high-quality projects** *to be optioned or sold*

Belleterre Gold Project

One of the last historic high-grade gold mining camps in the Abitibi Greenstone Belt that remains under-explored ...

PROVEN MINING BELT

- Past-producing Belleterre gold mine - 800Koz Au @ 10.7g/t Au (MERN)
- Up to 20 known high-grade gold veins

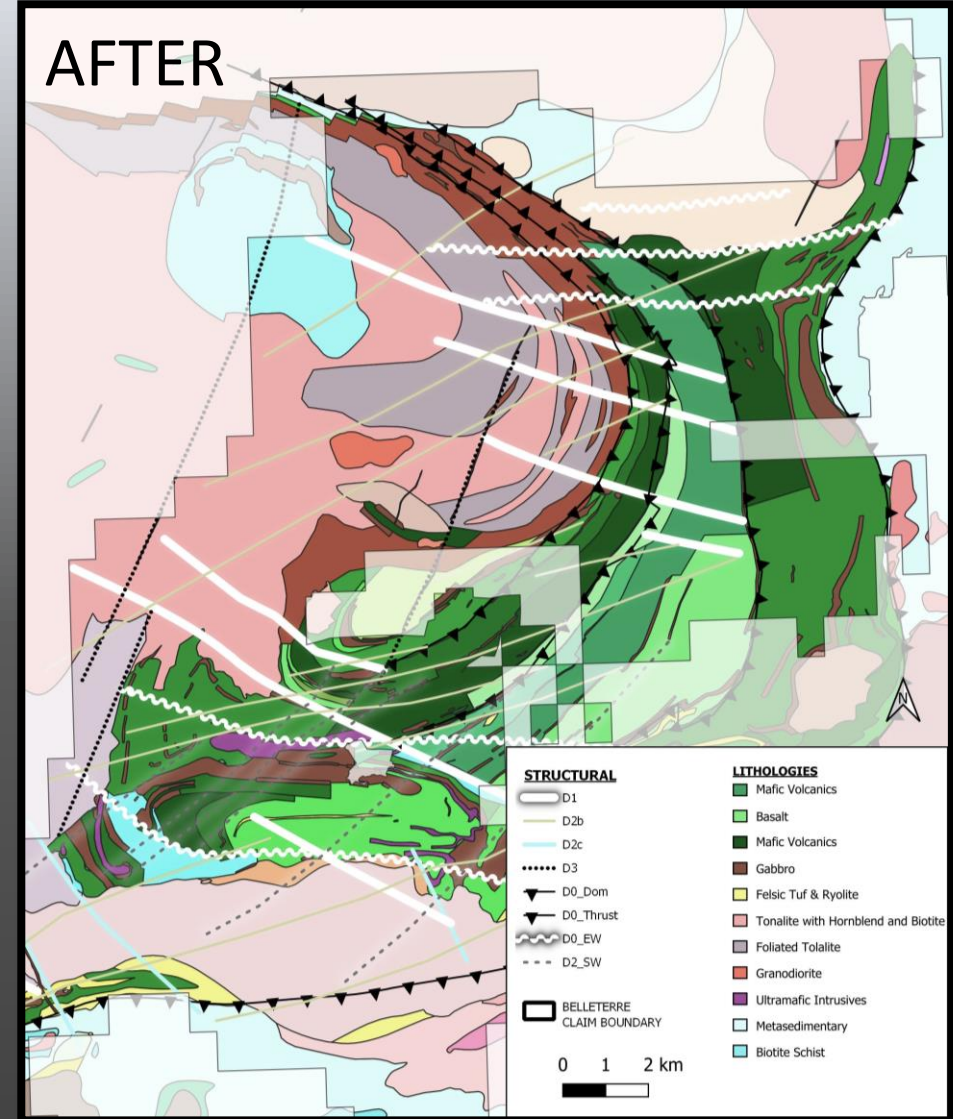

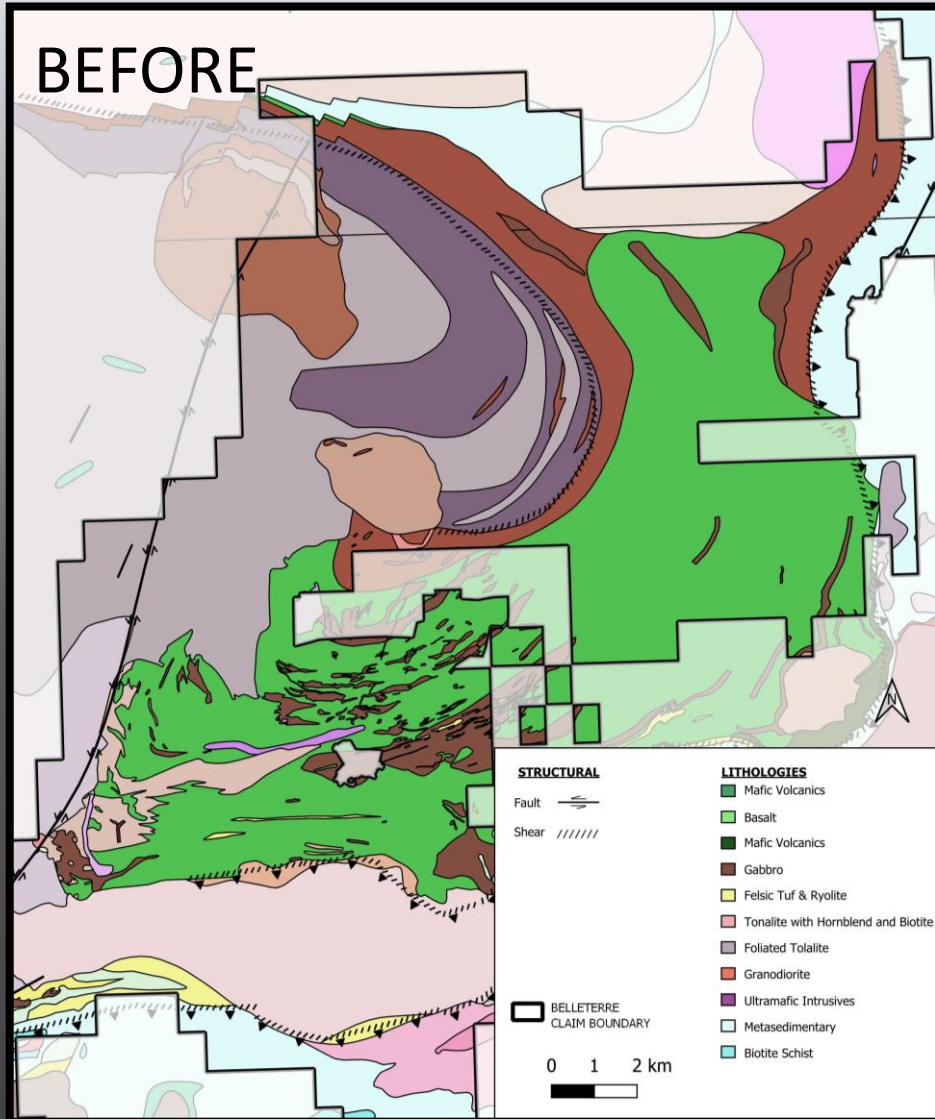

PROVEN VALUE CREATION STRATEGY

M&A ACTIVITIES from previous consolidated past-producing camps:

- Osisko (Canadian Malartic Mine)
- Detour Gold (Detour Mine)
- Integra (Lamaque Mine)

Belleterre Gold Project

Exploration Timeline

- Consolidation includes 10 Acquisition & Option Agreements
- Cohesive land-package consisting of 1098 claims and covering an area of 617km²

- Validation at surface of high-grade gold up to 274.5g/t Au
- Numerous underexplored litho-geochemistry anomalies

- Encouraging results from initial Phase I & Phase II Drill Programs
- Strong potential at depth and along strike at the past producing Belleterre Mine and the Aubelle Deposit
- Extensive data compilation
Updated 3D modeling

- \$21.83M strategic financing closed April 2024
- Phase III +60 000m drill program to begin June 2024

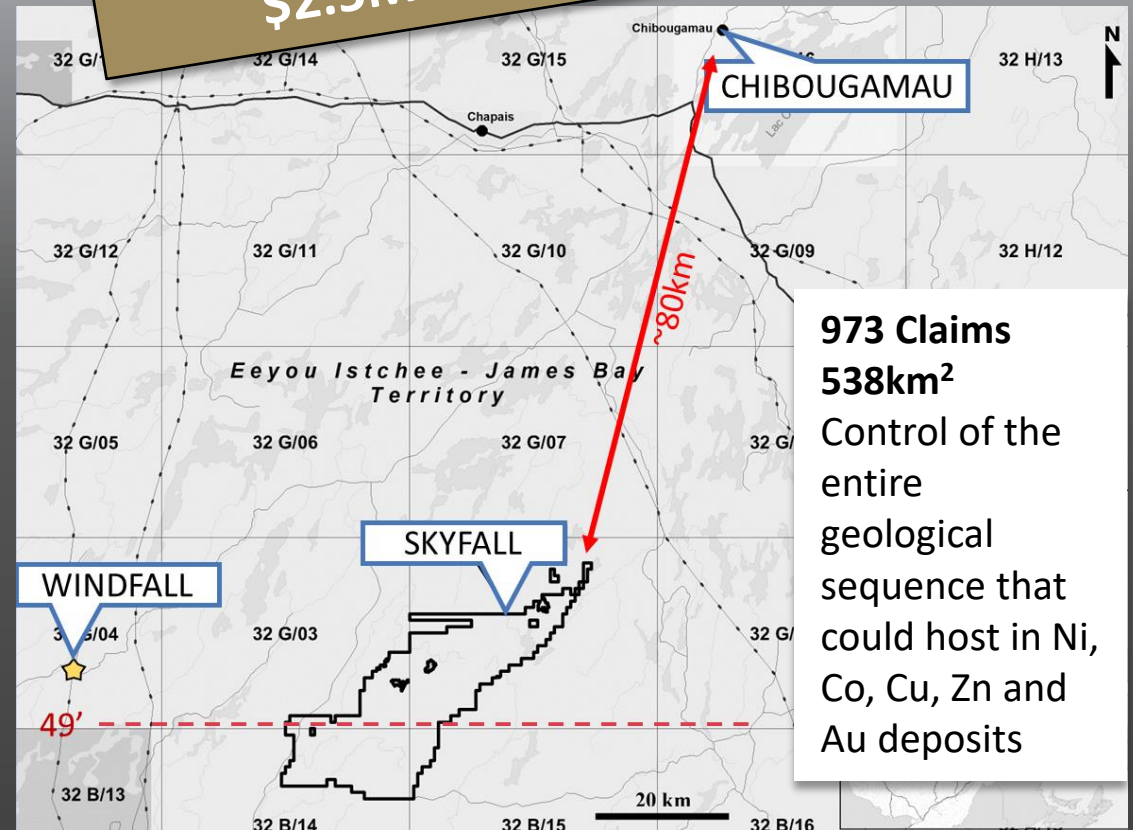

Skyfall Nickel Project

Span and Geologic Analogs

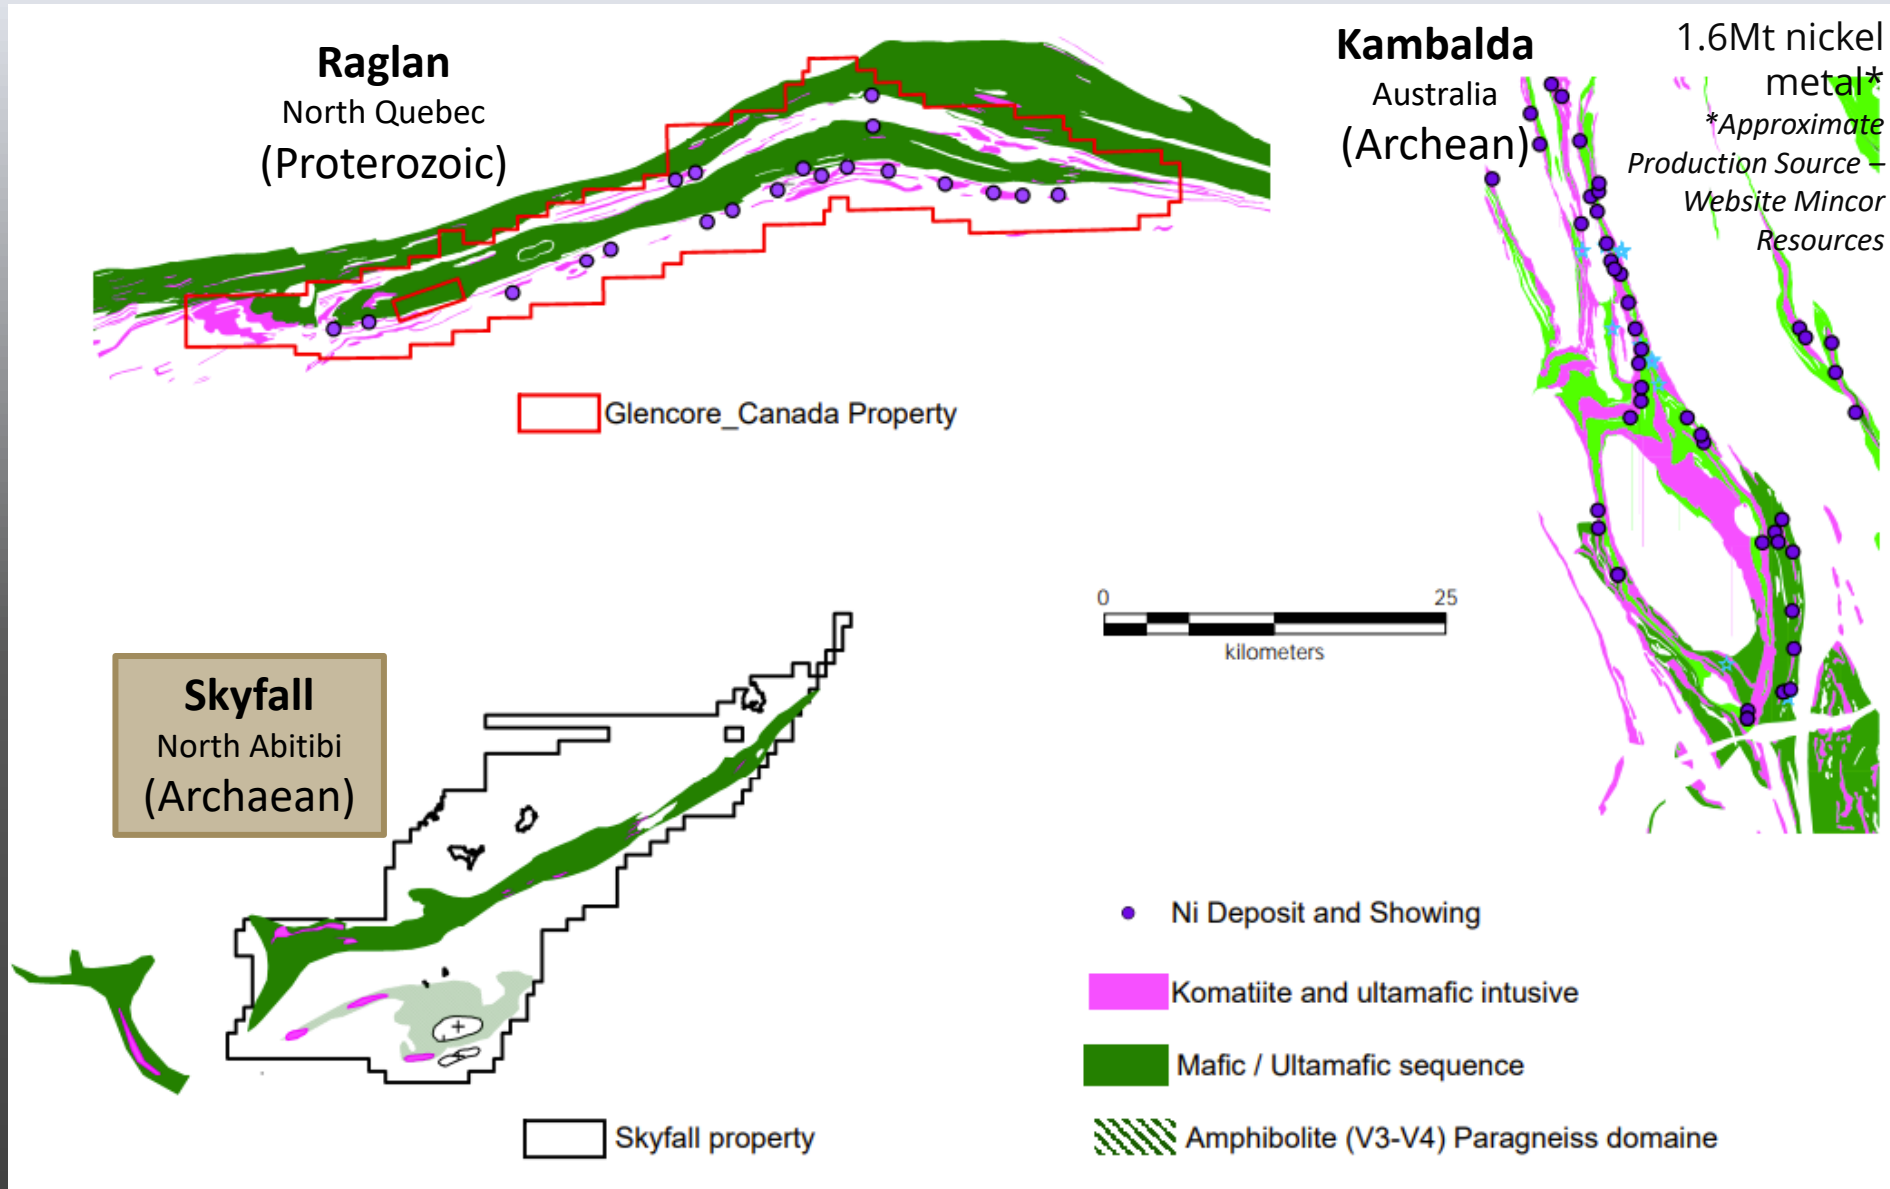

- Under-explored area with exciting potential in Ni, Co, Cu, Zn and Au
- Excellent location in North-Abitibi & James-Bay areas
- Good access created by recent logging production
- **District-scale project with control of the entire fertile geological sequence**
 - completed high-definition VTEM survey
 - completed 6-week comprehensive field program

Signed DOA in 2023 with
SOQUEM
\$2.5M over 2 years

Skyfall Nickel Project

Span and Geologic Analogs

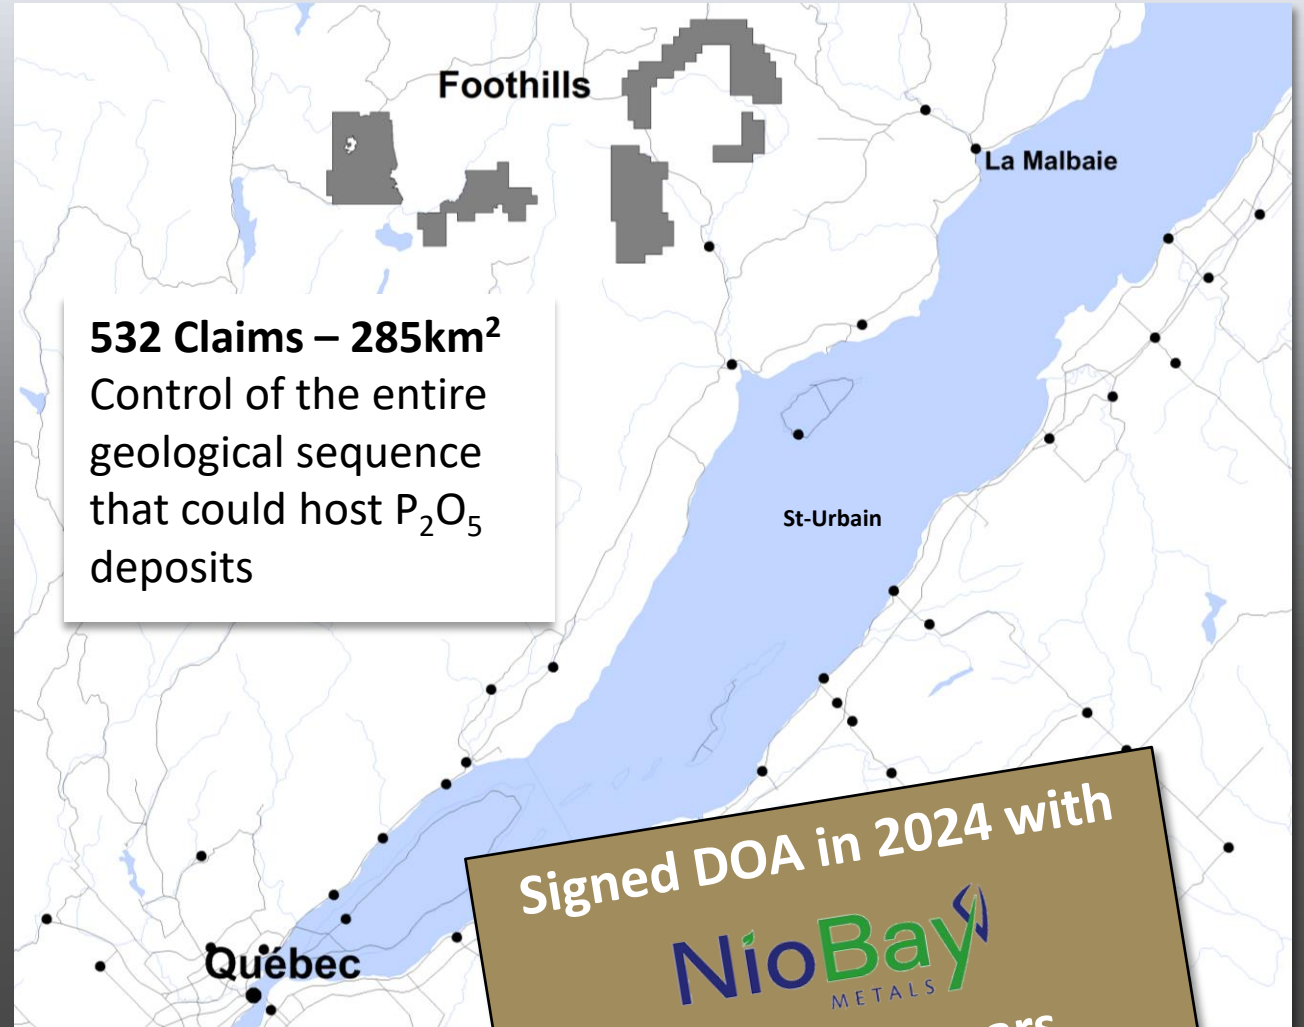

Foothills Project

VIOR A District-Scale Titanium & Phosphate Project

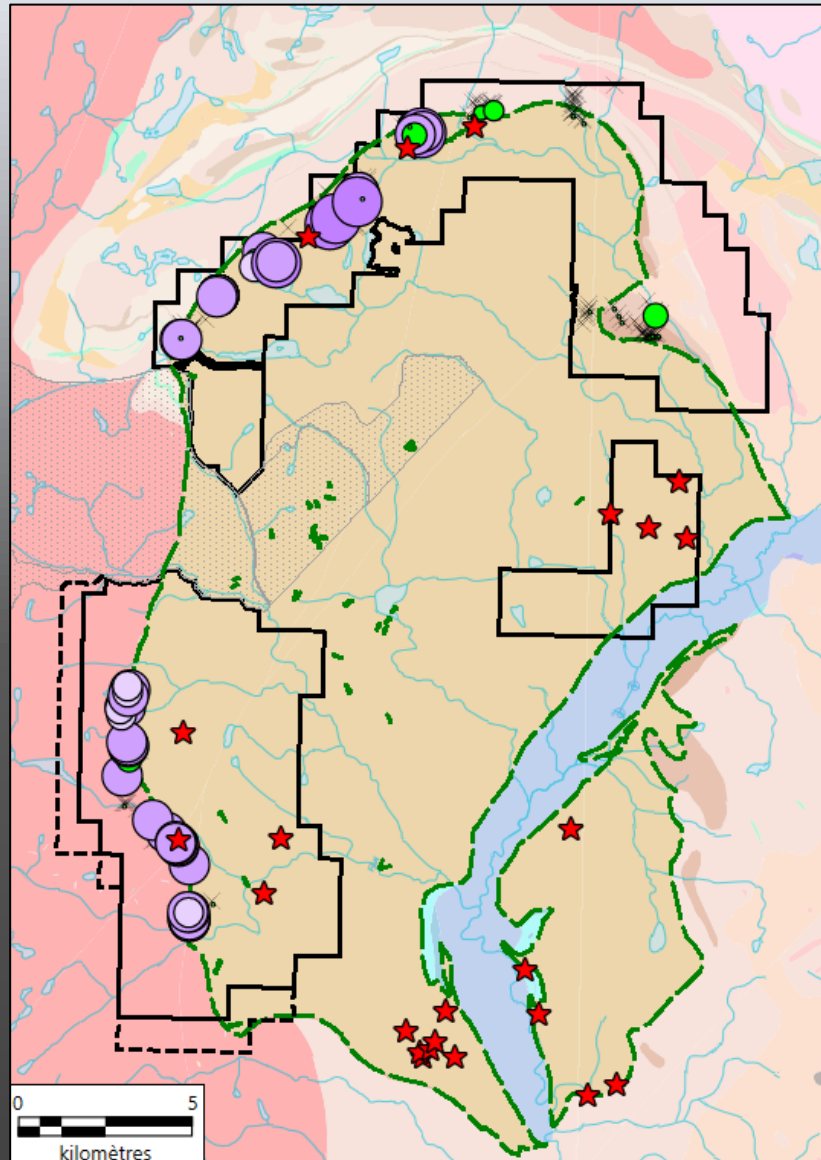

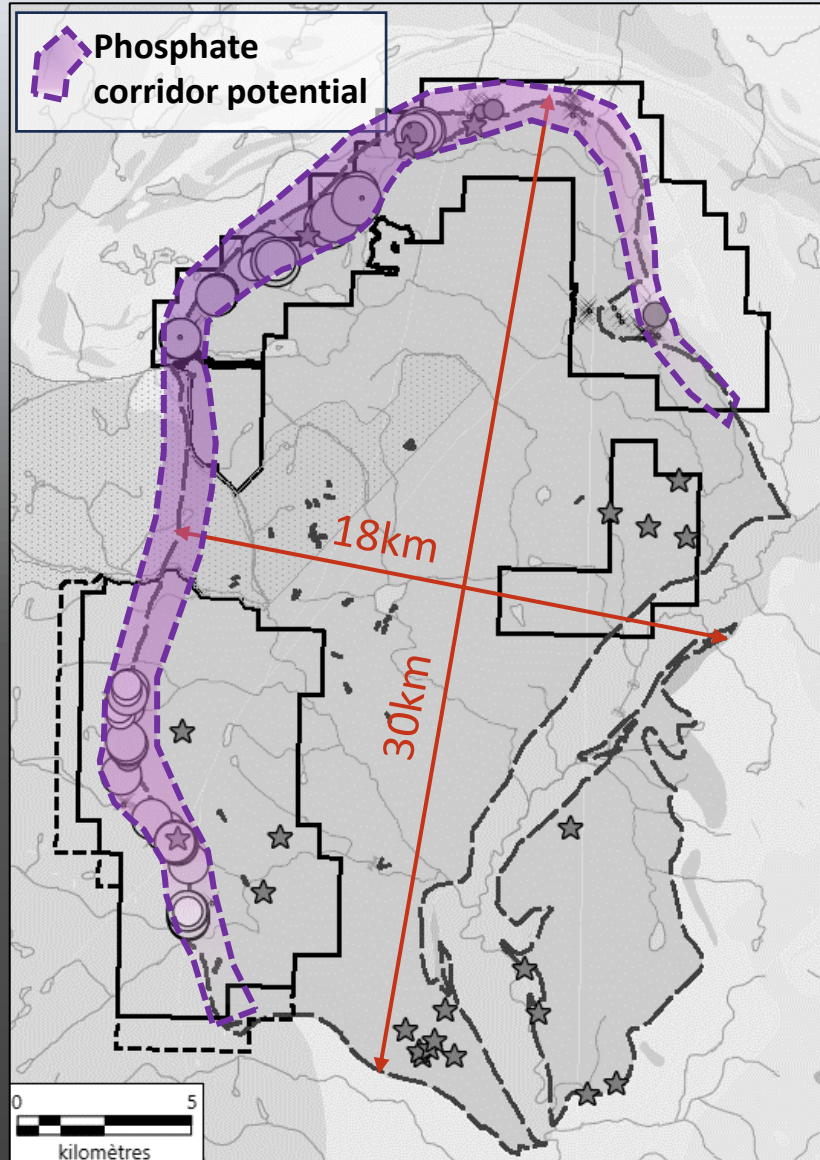

- Under-explored area with exciting phosphate potential
- Excellent location near St-Urbain, QC
- Good road infrastructure and easy access to deep water port
- **Discovery of rutile-bearing massive ilmenite horizons**
- **Discovery of 16.5km phosphate horizons**
